DETAILED ACTION

Examiner's Amendment.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Newly submitted claims 43-53 directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: drawn to process of making a semiconductor device classified in class 438 and subclass 49.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 43-53 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03. Cancel claims 1-30, 38-40, and 43-53.

Reason for allowance

The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed Electroless Plating Liquid and Semiconductor Device having a protective film having a thickness in a range of from 0.1nm to 500 nm, the protective film selectively covering an exposed surface of the interconnect, and the protective film being formed by an electroless-plating process using an electroless-plating liquid without using palladium.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
